Date: 02/09/2011

Dear Parents / Guardians:

Premier Academy has dedicated a great deal of attention on the focus of each individual child. We have always taken pride in doing so and have been utilizing a tool in our aid to advance even further our goals to help each student. Scantrons which recognize the function of questions are being used to pinpoint the areas students need most help in. These analyses will allow teachers, as well as parents and students, an even closer look at which areas of study need more focus. For example, we will now have a bar to bar chart of whether a student will need more focus in areas such as reading comprehension or word analysis, or geometric dimensions or problem solving. By studying these analyses, we will be able to gauge and assign certain numbers of hours to each subject study and private tutoring can be formatted to the results of the breakdown. In other words, scantron analyses will provide a specific guide to areas each student is weak in, and a private tutoring schedule will be designed to format the needs of the student. If you are interested and have any further questions about our new design, please feel free to contact the front desk for a more specific run through.

培名學院注重學生們的個人特質，我們也不斷的鞭策自己精益求精，希望能帶給學生更多的幫助。在此次 STAR (Standardized Testing and Reporting) (加州標準測試) 的評鑑中，我們特別使用電腦化的閱卷方式來解析學生的成績，便於讓家長老師及學生自己了解所擅長及有待加強的項目，例如我們利用長條圖讓家長更能一目了然的了解學生的優缺點，探討學生是否應在閱讀能力或字彙解析上加強，應在幾何圖解或解題技巧上下工夫。為了能更進一步幫助學生，我們同時也提供一對一的家教課程。換言之，電腦化的閱卷方式能明確的剖析出學生有待加強的科目，而利用一對一的家教方式，則可為學生量身訂做一系列符合個人需求的課程。幫助學生提升能力，求取更好的學習成績。有興趣的家長們，請盡速與我們洽詢聯絡。
